RE: Hawleyville Post Office Site Review

Dear Mr. Borst:

This is a follow up to our last Community Contact letter concerning the selection of a new location for the Hawleyville Post Office.

After carefully reviewing the sites which were offered, the Postal Service has decided to select the property located at 23 Barnabas Road. We believe that this new location will provide the community with an upgraded, modern facility that offers a safe working environment for our employees and a level of service expected by your customers.

As provided in Postal Regulations, your office may offer comments to the selected location within the next 30 days. Comments should be directed to the USPS Vice President, Facilities, and addressed to my attention, at the address shown in this letter. A response will be provided within 15 days.

Sincerely,

William S. Moncrief
